

WOODHOUSE
GROVE SCHOOL

Co-curricular Sport Performance Indicators

- To promote our co-curricular programme to all age groups, to provide opportunities for pupils to access the full range of sports and activities offered on our ever-growing programme.
- To increase participation statistics across the whole school in terms of pupils accessing our programme as well as representing the school in competitive fixtures. (We guarantee all pupils named in the squads a minimum of half a game during regular fixtures).

(Target - 75% whole school participation in competitive fixtures in 2019-20)

- Challenge for regional and national success across the individual and team sports activities offered on our programme. (We cannot guarantee all pupils named in the squad playing time).
- To develop strong club links and partnerships with regional, county and national organisations to help challenge our more abled pupils to compete on a representative level.
- To meet the needs of the pupils on our stretch and challenge programme through the Gifted Athlete Education Programme (GAEP)
